

# Predictions For The Year 2002

## Major Turning Point in History

Writing my predictions for the year 2002 has been the most difficult thing I have had to do in my entire writing career. The reason this has been such a difficult task is because as an intuitive counselor and professional astrologer, I always strive to be a **positive** channel for the words, wisdom and knowledge that flows **through** me **from** God. Positive is the operative word here. Realistically, regarding what I see, and have searched and researched astrologically for the year 2002, there is nothing that is positive or about which to be optimistic.

During the past several months, I have erected dozens of horoscopes of the countries that you will read about in this article. I have had numerous dreams, and experienced many revelations while in prayer and meditation. All information ascertained has been extremely dire.

If you have read columns that I have written since 1999, you will be prepared for what you are about to read. You will remember that I consistently referred to the year 2000, and the four Solar Eclipses that occurred during that year, as the precursors for, “Major turning points in history.” Well... here we are... living and dying... through Major Turning Points in History. The old paradigm is gone... destroyed with The Twin Towers of Manhattan September 11, 2001.

The planetary pictures scrutinized for 2002 can be summed up with the following interpretation, “People banding together for a common cause. Confusion may reign but the long-term effects are those of rebuilding and transformation. After the dust has settled, the rebuilding starts and the consequences of this reshaping will have far-reaching effect.” This is a quote I originally wrote in this column in the Fall of 1999 when I gave the predictions for the Solar Eclipses of the year 2000.

However, there is good news! The good news is... the new paradigm is ours to create! It is my fervent prayer that **you** finally discover this realization... that you, in your own unique way, immediately begin to manifest a world that is better than when you entered it.

My mission is to communicate the possibilities of future circumstances and events, and to teach the Laws of Manifesting – the manipulation of energy in order to produce a desired result. Read on to discover **what** we need to change. At the end of these predictions, I will reveal how we create those changes - the new paradigm.

### What We Need To Change...

#### The USA – The Eagle Soars

Government, whether federal or local, invades every area of your life. As the War Against Terrorism continues, each of us, on an individual basis, will be forced to endure more losses of personal freedoms, financial losses and personal security. Extensive government involvement

pushes your patience beyond its limits. Unemployment records hit an all time high. This circumstance creates the demand for more social programs supported by... you guessed it - your tax dollars. Simply stated... Socialism prevails and expands in the USA!

The Solar Eclipse, June 10, 2002, occurs at 7:46 P.M., E.S.T., in the sign of Gemini, 19 degrees, 54 minutes. This eclipse, and the transiting planet, Saturn, less than a degree apart, will both fall on the natal Mars of the USA horoscope. This combination does not bode well for travel or communications.

I fully expect the travel industry to suffer greatly. There will be more planes falling from the skies, and security measures will not be adequate, in spite of all that is tried.

Alliances with nations who have pledged support become fractured due to a breakdown in communications.

Dates of caution regarding aggressive actions against the USA in 2002 – January 18, February 8, May 15, June 8, September 14, and October 6. Please place a 72 hour window around each of these dates.

### **Other planetary pictures indicate...**

1. The Dumbing Down of America continues as our educational system spirals further downward. And you thought it couldn't get any worse! Just wait until you hear or read about prevailing conditions this year.
2. Race and ethnicity of the "hyphenated" American, i.e., Mexican-American, Arab-American, African-American become strained. Perhaps the lesson here is... eliminate the hyphen if you truly wish to become an American.
3. The stock market begins a very slow recovery in mid June. Do not look for any serious gains or economic improvements until Spring of 2003.

### **President George W. Bush – Hold your friends near... and your enemies even closer!**

Treacherous and deceitful people surround you, and they will be difficult to identify. There is danger from foreign partners and enemies. You are Cancerian (born July 6, 1946), and therefore very intuitive... with a keen sense of perception. Trust your gut - it's the voice of God talking to you. You will experience financial problems, and there is also the possibility of scandals regarding exposure of top-secret discussions and information. The good news is that your enemies underestimate your strength and ability to overcome the obstacles they place in your path. You will not back down from a confrontation, and you emerge victorious each time. February, July and October are your toughest months in the year 2002.

### **Israel – Pushed to the limit.**

Both Prime Minister Sharon and Israel's horoscopes are heavily afflicted in 2002. International pressure and constraints prevail, however, Palestine's aggressiveness escalates to a point of no return. The most dangerous time periods for an all out war are February, March, and June of 2002. The best opportunity for peace talks occurs in October.

## **Middle East Woes – The Year of Financial and Dissident Plagues**

1. The young King of Jordan discovers he will not be able to rely on an unstable ally. Keep your eye on Iraq, your majesty, and prepare yourself for a financial crisis.
2. Syria gets hammered unmercifully by the June Eclipse. The country suffers economically. Its people are angry and begin to rebel against this suppression. The summer months bring unprecedented strife, turmoil, and suffering.
3. Kuwait is another hot spot that the June Eclipse ignites. The difficulties arise from internal dissidents. The leadership is threatened and violence is certain.
4. Saudi Arabia is presently in alliance with the U.S., however, this Kingdom is overflowing with dissidents who become a serious problem as acts of rebellion and deception increase. Financial problems in the Fall of 2002 put the sovereignty at risk. Greed and suppression go hand and hand. The warning – God don't like ugly and He don't sleep!

Well, there you have them, my predictions for the year 2002. As I promised, I will now share the Laws of Manifesting with you. Many are called, but few are chosen. If you are reading this, I assure you, you are one of, The Chosen Ones. Miracles happen every day... the impossible takes just a little longer.

### **The Laws of Manifesting - How We Create Desired Changes**

Write down on paper, in order of their importance, the things and conditions you really want to have happen. Do not be afraid of wanting too much. God is not prejudiced. He grants *all* requests... *All prayers are always answered.*

1. Read the list of what you want to happen three times daily: morning, noon and night.
2. Think of what you want as often as possible.
3. Do not talk to anyone about your list except to God. In time, He will unfold to your conscious mind the method of how you are to achieve what you have requested.

It is as simple as I've stated. All truth is simple. You have nothing to lose, and everything to gain if you test The Laws of Manifesting. Quite frankly, this is our only salvation and offers the best opportunity to change the future... create the new paradigm. Go for it! God Bless America, you, and yours.
