

Predictions For The Year 2003–

Prophecy for President George W. Bush and The United States of America

Copyright © Stacy Dean 1/10/03

By Stacey Dean, PMAFA – The Cosmic Reporter

Happy New Year! It is always a pleasure to be invited by Sean David and Melissa Morton to write a column for The Delphi Associates Newsletter. I want to extend heartfelt thanks to both of them for the opportunity to document my 2003 Predictions in this column.

Before getting into my 2003 predictions for our president and nation, let's review what I wrote in one of my past columns as published in The Delphi Associates Newsletter, April 2001. I want to do this, **not to impress you** with my psychic ability or establish a "track record," but rather to educate you as to the validity and value of astrology... it is a science... a science that requires calculating hundreds of mathematical equations in every single horoscope, and hours researching through ancient writings in order to properly interpret said equations.

The following predictions are exactly as they appeared in my column entitled, *Prophecy for a President – The George W. Bush Years*. To call your attention to the predictions that have indeed manifested, I have listed "the event or happening" in **bold print, parenthetical, and italicized** throughout this previously published column.

Prophecy For The Presidential Years of George W. Bush

2001 - Your first year as President will be extremely difficult. The adjustment will not be easy, nor will it bring you joy. A 9th house sun indicates you will have to focus your energy on *foreign* affairs, education reforms, and trying to keep your campaign promises.

(This energy is manifesting as predicted as evidenced by President Bush's main focus being placed on foreign affairs and relations, i.e., fighting terrorism on a global scale because he "believes" these actions will produce a safer future for the United States of America....

WRONG! WRONG! WRONG! Mr. President.

You are risking this nations resources, money, and future. In previous columns I have always advised that your main focus ought to be directed towards restructuring immigration polices, deporting illegal aliens, and most importantly, tracking down and eliminating the terrorists that are already living within our borders. Simply stated – take care of your nation's own backyard!

You also need to focus on our nation's economy! If you really want to get in touch with this nation's economic base, and see the struggle the average citizen is having "making ends meet," you, Mr. President, the Congress, the Senate, and other "policy makers" in Washington, D. C., need to spend a week shopping at Wal Mart, Sam's Club, K-mart, Walgreen's Pharmacies, and let's not forget The Dollar Stores. I would really like to put all of you behind a shopping cart in those places for thirty days, but I know you would never survive the experience.)

Your 2001 Solar Return midheaven is in the critical degree of 29 degrees Cancer 57 minutes indicating a great deal of emotional stress which will begin to affect your health, particularly your stomach and digestive system. This chart's ruler is Venus, and she is also in a critical degree, 0 degrees Gemini 4 minutes, and hard aspected. This indicates mental stress and further validates the need to guard your health.

(Besides almost choking to death on a pretzel, I'm sure our president has had more than his share of stomach problems these past two years. The toll this much stress has created, will begin to manifest as illness during 2003/2004.)

Mars, out of bounds and in the 2nd house, indicates you will have to deal with serious problems both within our nation, and our nation's military forces.

(The events of September 11, 2001, created unimaginable challenges to the governing bodies of our country, and there are serious problems that need to be corrected, as I stated, both within our nation, and in our nation's military forces; from forming the Homeland Security Agency; strengthening the military; and we now realize, one year later, that we must also deal with financial burdens created by the events of September 11, 2001!)

You will have to make decisions regarding taking military action in various "hot spots" where the U. S. has a vested interest or pledged support. One of your greatest concerns will be the Israel/Palestine situation.

(This planetary energy manifested in the form of President Bush's decision to take military action in Afghanistan, and his current determination "to war with Iraq," not to mention billions of American tax payers dollars "pledged to support" to Saudi Arabia, Egypt and other Middle Eastern countries. This is like tying a pork chop (pun intended) around a dog's neck to get the dog to play with you. Furthermore, is not our nation plagued with Muslim Extremists destructive activities due to the U.S. policy and association with Israel?)

Negative Martian energy also indicates disagreements between you and Colin Powell, an Aries Sun Sign individual. You two will, "buck heads," so to speak.

(This specific prediction has truly manifested exactly as foretold. As of mid- December 2002, it is common knowledge that President George W. Bush and Colin Powell have major differences and frequent disagreements regarding what "path" to follow in order to safeguard our nation.)

Mars and Pluto are conjoined in the 2nd house of your Solar Return, both are very hard aspected, and retrograde. This indicates a downward trend in the U.S. Stock Market, the nation's economy, business, and employment. Financial problems plague government, major corporations, businesses, and the nation's population.

(This planetary configuration manifested as the financial scandals within some of our nation's largest and most "successful?" corporations, i.e., Enron, Arthur Andersen Accounting Firms, World Com and Global Crossing, just to name a few. And because Pluto is involved, these financial fiascos will most certainly get very nasty before "accountability and responsibility" policies will be established. Additionally, the U.S. stock market will not look attractive to potential investors until this mess is cleaned up and the threat of the U.S. going to war is resolved. This is just common sense!)

You will not be able to successfully "promote the general welfare," nor your tax cut agenda until after Mars stations direct July 19, and Pluto moves forward August 23, 2001.

(As of this writing, mid December 2002, President Bush has dismissed Treasury Secretary, Paul O'Neill and his Economic Adviser, Lawrence Lindsey... too little, too late to "promote the general welfare"? Tax incentives and relief must be adopted or our economy will continue to crumble!)

Be aware of deception and lack of support from your cabinet members, and White House staff. Your foundation is unstable...prepare for the worst and hope for the best! *(Too bad you did not heed this warning, Mr. President. You may have saved yourself some grief and embarrassment. You continue to appoint "advisors and helpers" that prove unsatisfactory, incapable or unsuited for the task selected. Your most recent difficulty being the appointment of Henry Kissinger to head the 9/11/01 investigation... and within days... Mr. Kissinger resigned!)*

You will have to rely more on your own intuition and prayer for guidance.

The best piece of news I can give you is your approval rating climbs steadily upward in weekly polls conducted by major publications.

(Throughout his presidency, George W. Bush has had unprecedented high approval ratings in various public opinion polls.)

2002 - Your second year as President positions the Sun, Jupiter and Mars in the 7th house of your Solar Return indicating you will focus on "teamwork." Now, you see clearly the difficulties you face with opposing political factions. You identify and become impatient with those in power who continually promote their personal agenda.

With a Capricorn ascendant, the image you project will be a "no-nonsense, traditional" approach to the business of running this country.

Well-aspected Saturn and Mercury in Gemini in the 6th house energizes you with the ability to communicate your ideas effectively.

(This energy manifested as The Republican Party “win” during the 2002 Elections due to President Bush’s support of various candidates. It is also providing the positive responses our president continues to receive when he asks for support of his agenda. He is presently under planetary influences that will give him what he wants. In short, “What the Chief (Bush) wants, the Chief gets! He just needs to name it in order to claim it!)

Your dedication to God and country impacts this nation. You continue to gain the confidence of the American public due to positive media and press coverage.

The Solar Return Scorpio midheaven indicates a transformation of your objectives and goals. Your strength of will and courage will be tested. However, you will receive favors and support from friends, associates, and the nation.

Neptune and Uranus retrograde in the 2nd house indicate an unstable economy. *(Well, I don’t think anyone will argue the validity of this prediction. It certainly is occurring.)*

The good news is... some positive action will be taken to promote changes in the tax structure, and the elimination of excessive wasteful spending of tax dollars in certain federal government programs. *(I am still waiting for this one to manifest.)*

2003 – The President and His Nation

“What do the stars portend for 2003 for our President and The United States of America?” Dates listed below in *italicized, bold print* appear that way in order to call your attention to “auspicious timing”. **The predictions stated should occur sometime during the week surrounding the date given.**

2003 - Your third year as President as evidenced by numerous astrological investigations suggests that your health and safety are at risk. There are indications of physical danger from an accident or personal attack, as well as, a possible heart attack.

You are most vulnerable during *the weeks of December 23, 2002; May 16, 2003; July 4, 2003; and October 25, 2003.* I trust and pray this warning comes to your attention, and that you will take necessary precautions to change these circumstances and possible dangerous events.

Your 2003 Solar Return Taurus ascendant projects an image of your being more realistic, and certainly more stubborn than usual. You will be tenacious and persevering with your goals and objectives. Heaven help anyone who stands in the way of your efforts.

The Capricorn midheaven of this same horoscope indicates that you will work tirelessly to achieve your objectives. However, there are also numerous planetary configurations indicating that you will make dangerous enemies in the process.

Hard aspects to Saturn and the Moon indicates the health of your parents is precarious, particularly your mother. This aspect advises caution when dealing with women. Furthermore, it denotes the possibility of, “a nation in mourning.”

The rare energy of transiting Neptune opposing your natal Mercury makes its third and final contact **January 8, 2003**. Any decisions you make from **December 7, 2002 to February 4, 2003** require extreme caution. Poor decisions based on inadequate information and misunderstandings are very likely at this time.

Transiting Saturn will conjunct your natal Sun **during the weeks of October 25, 2003, and June 14, 2004**. This energy always manifests as increased responsibilities, obligations and hard work. Saturn holds back the energy of the Sun, which is your basic life energy. It confines and restricts you. It also exposes all of your inadequacies. It is during this time period that you could become extremely self-critical and easily discouraged. Heavy energy? Yes, indeed! You may also experience this energy as public opinion turning against you.

Least you begin to think the stars have totally turned against you, Mr. President, let me advise you that, “Nothing is *all* bad... and nothing is *all* good.” During my thirty-year metaphysical journey, I have learned to honor the old adage, “Whatever is, is right!”

The rare and unusual “once in a lifetime” energy of transiting Pluto (5th house) trine your natal Venus (1st house) will begin **December 31, 2003**. This energy manifests as a time of increased emotional intensity and changes your personal value system. People will recognize the intensity that has gone into your work, for which you could receive considerable recognition.

More importantly, I must call to your attention to the fact that, during this time you will be attracted to activities that are very powerful and involving, **that may even carry a risk of life**, because you want to experience *everything* you do very *intensely*. The most foreboding time period of this transit are the weeks of **January 31, 2004, May 19, 2004, and November 28, 2004**. Additional security precautions for your safety are advisable.

War With Iraq – George W. Bush’s Destiny?

In astrology there is a method of study known as synastry whereby an astrologer compares two natal horoscopes, one to the other, in order to discern the nature of the energy created when the two entities are united in some way.

In order to determine if there is a “fated” situation regarding George W. Bush and his determination to go to war with Iraq, I knew that one of the first things I had to do was to investigate the possibility of synchronicity between his natal horoscope and the natal horoscope of Iraq.

The birth data I used for Iraq is July 14, 1958, 7:00 A.M., GMT, Baghdad, Iraq (33N21, 44E25). George W. Bush’s birth data is July 6, 1946, 7:26 A.M., EDT, New Haven, Connecticut (41N18, 72W56).

The synchronicity of the planetary connections between these two horoscopes is amazing! Both have Leo Ascendants activated by a Solar Eclipse July 31, 2000. Both have the Sun, which rules the Ascendant, in the sign of Cancer in the 12th house indicating they have “secret enemies” working behind the scenes against them. Iraq has its dictator, Saddam Hussein. Bush’s 12th house Sun indicates he is his own worst enemy.

Both charts have positive aspects between the houses of communication (3rd house) and politics (11th house), as well as, planets in the Air signs of Libra and Gemini. This indicates that both Iraq and Bush can push communications to the limit and talk a good game plan. There are also indications of experiencing “on again/off again negotiations”.

Iraq’s Moon sits on top of Bush’s Uranus exactly at 19 degrees Gemini, activating the country’s Venus (11th house) Saturn (5th house) opposition. This does not bode well for Iraq or its leader, Saddam Hussein. However, the greatest indication that Bush may well take military action against Iraq is the conjoining of his 24 degree Aries Midheaven (his place in life or destiny) and Iraq’s 25 degree Aries Mars (9th house) indicating war with foreigners. If we add the fact that both Bush and Iraq’s Mercury are conjoined in Leo, this further denotes that Bush’s decisions regarding Iraq will either make or break his legacy as President of The United States. In short, Iraq’s destiny is in the hands of George W. Bush, and his destiny will be determined by his decision as to other or not to proceed with military action against Iraq.

There are also planetary connections between the natal horoscopes of Iraq and The United States (I use the Sibly 13 degrees Sagittarius Ascendant for the U.S.). I will not bore you with astrological details. However, numerous contacts between the two charts certainly indicate the two countries were destined for combat.

At this point, I know what you are thinking. Okay, Stacey, did you see anything in those charts to indicate that Iraq is hiding or in possession of chemical and nuclear weapons? In a word, YES! I could list at least six aspects to confirm this information, but in the interest of not boring you with more astrological validation, I won’t. Anyone who is interested and wants the details can call me (702/739-7899) for the exact aspects. *Don’t email or write to me for this information because I do not have the time to respond to written correspondence.*

The Gulf War was inevitable. Father President Bush may have played out his destiny, and yet, what is that old adage, “The sins of the father fall on the son.” ?

If G.W. Bush’s destiny is to “finish what his father started,” the most auspicious period of time for all this planetary energy to explode could be triggered by the Full Moon in Cancer on **January 19, 2003**, or some time during the week of **January 22, 2003**, when transiting Pluto opposes Iraq’s Moon, Bush’s Uranus, and the U.S. Mars, all at 19 degrees of Gemini. If Saddam insists on continuing to resort to his trickster tactics, astrologically, it does appear that G.W. Bush will follow through with his plans for war against Iraq. I pray this is not our nation’s course of action because it could very well be the beginning of the end times so many prophets have predicted.

Homeland Security Agency – Pay Attention

The probability of our nation entering the theater of war in 2003 is further evidenced by transiting planets making contact with sensitive points created by the Grand Cross Solar Eclipse of August 11, 1999. The nature of this eclipse was predicted by Michel Nostradamus (1503-1566) when he wrote Century X, quatrain 72.

In the year 1999 and seven months,

From the skies shall come an alarmingly powerful king,

To raise again the King of the Jacquerie,

Before and after, Mars shall reign at will.

The main reason Nostradamus was able to predict events and circumstances so far into the future was because he was an astrologer and very accurate with timing and interpreting solar and lunar eclipses. There is a mathematical formula that allows one to calculate and plot eclipses into infinity. This is the main reason why Nostradamus could write his predictions for centuries so far into the future, century after century!

“In the year 1999 and seven months” gives the timing of The Grand Cross Solar Eclipse *in fixed signs* that only occurs approximately every *five hundred years*.

“To raise again the The King of the Jacquerie” is the line that interprets the energy of the eclipse. Nostradamus was referring to a rebellion of peasants (The Jacquerie) in northern France and the bourgeois in Paris that took place early summer in 1358. Their leader was Guillaume Karle, a man who used “terrorist tactics” to fight. King Charles II of Navarre used exceptionally brutal methods, slaughtering over 20,000 men, women, and children in order to end the revolt. Therefore, Nostradamus was trying to tell future generations that when the rare Grand Cross Solar Eclipse in fixed signs occurs again, one of the things they should prepare themselves for would be peasants revolting led by a man who was a terrorists, and the only way to defeat them would be to use exceptionally brutal methods. Well, now, do any of you reading this relate it to what is happening now? And when did it all begin?

“Before and after, Mars shall reign at will,” is telling future astrologers to carefully *observe when the planet Mars shall be activated in the horoscopes of countries or their leaders* because circumstances and events will be similar to, “The Jacquerie Event”. The United States natal Mars is at 21 degrees of Gemini and transiting Pluto in Sagittarius is about to oppose it, which indicates our nation could go to war.

Just like Nostradamus did over five hundred years ago, astrologers in modern times still rely on eclipses as a means of identifying, forecasting, and timing future events and trends. For example, during the same August 11, 1999 Solar Eclipse of The Grand Cross in fixed signs, the planet Venus was retrograde. However, Venus moved into direct motion at 18 degrees of Leo on

September 11, 1999. It was during this time period that plans to attack the World Trade Center and the Pentagon were developing in Hamburg, Germany. The day the terrorists executed their plan on September 11, 2001, transiting Venus was exactly at 18 degrees of Leo again, activating the energy of the eclipse.

Incidentally, the effects of the 1999 Fixed Grand Cross Solar Eclipse will continue through 2006. However, of a more immediate concern could be the dates of **May 15, 2003 and May 31, 2003**, both of which indicate threats to aviation, computers, electrical grids, power plants and other high-tech systems that our nation relies on.

The Lunar Eclipse on **November 8, 2003** figures prominently with that of 1999. Add transiting Saturn at 13 degrees of Cancer during November, conjoining both the U.S. and G.W. Bush's natal Suns, and we have a serious mixture of chaotic energy; dangerous and hard times that could *exceed the trauma* of September 11, 2001.

If the citizens of our nation are serious about defeating terrorism within our borders, they will have to make many sacrifices and work hard towards that end. An example of what this energy created in the past in our nation's history are the last two times Saturn conjoined the U.S. Sun in June and July of 1945 – just before the turmoil of World War II, and August of 1974 heating up the Vietnam War.

The United States Economy in 2003

Need I tell you that uppermost in everyone's mind these days is our nation's economy? The state of our stock market, major corporations, and financial institutions is another effect of The Fixed Grand Cross Solar Eclipse of August 11, 1999 combined with The Saturn/Pluto oppositions that occurred in August and November of 2001, and May 26, 2002. These planetary energies are responsible for creating events and circumstances that is teaching everyone tough lessons regarding money, power, and greed.

We begin 2003 with Mercury in Capricorn (work/business) going retrograde January 2nd. Mercury rules communication and transportation. In retrograde motion until January 22nd, we can experience difficulty expressing ourselves, misunderstandings, indecision, changes in plans, and accidents. This energy definitely takes its toll on the economy in the first quarter of the New Year.

With Uranus conjoining our nation's Moon, **December 29, 2002 to February 6, 2003**, I expect the Spirit of Rebellion to rise. U.S. citizens will demand the government "promote the general welfare" by extending unemployment benefits, and the persecution of "greedy corporate executives". Media waves will resound our nation's disgust created by more mass layoffs, a rise in the unemployment statistics, and a stock market that continues to crumble. This energy is exact during the week of **January 19, 2003**. Yep, I know this is not what you want to hear, but I must tell you the truth as I see it intuitively and astrologically.

Saturn conjoins our nation's Mars from **February 6, 2003 to March 10, 2003**. The energy is exact **February 22, 2003**. Hard work prevails. It's a difficult time period ushering in limitations

and restrictions from the top down, meaning from the richest to the poorest; financial sacrifices and adjustments will have to be made by everyone.

Saturn (business/foundation) trining our nation's Moon (home, family, real estate) is what is saving our economy. This energy continues well into the year, therefore, I do not expect interest rates set by the Federal Reserve to rise until possibly the third quarter of 2003. If you are looking for auspicious dates to invest in the real estate market or any other related businesses, try ***May 2nd, 11th, and 20th of 2003.***

I will not go into any more details concerning the stock market. I'm going to leave that information for Sean David Morton to give you because his track record speaks for itself. He is one of the most sought after seers in this arena. God Bless his gifts. J

In closing, I urge all of you to focus on what you ***want*** to happen in your life and in your country, not what you ***do not want*** to happen. ***Your mind is all powerful and constantly creating what you believe.*** After writing such dire predictions, I feel the best advice I can leave you with is to remember The Laws of Manifestation and *use* them.

The Laws of Manifesting:

If you know what you want, you can have it!

You must name it before you can claim it.

What your mind can conceive and believe, it can achieve.

Ask for it to manifest –“ in a Divine Perfect Way!”

Write down your request because the spoken word is powerful, but the written word becomes law!

Happy New Year! With prayers, love and rainbows for you – Stacey Dean
